**Action Taken Report on Feedback of Students on Teachers**  
**(A.Y. 2022 – 2023)**

---

The feedback analysis was conducted through a structured questionnaire from students in arts, commerce and science faculty. Feedback percentages on teachers' knowledge from students, shows a significant majority, 94% find the teachers' knowledge is excellent, while a smaller percentage, 5.7%, rates it as good. This generally indicates a positive sentiment among students regarding their teachers' knowledge, with a high level of satisfaction.

Other feedback about teachers like communication skills, teachers regularity, availability of teacher in college campus, teachers gives sufficient time for evaluation shows that students has a high level of satisfaction with their teachers.

It appears that the overall opinion about teachers is quite positive based on the provided feedback, Excellent: 89%, Good: 9.4%, Average: 2%, this indicates a high level of satisfaction among students regarding the quality of teaching. The majority of students perceive the teachers as excellent, with a smaller percentage expressing a good opinion. The relatively low percentage for an average opinion suggests that the majority of students hold a positive view of the teachers' performance.
